

Acoustic Wall Box & Floor Cabinet

The Qube Acoustic Wall Boxes and Floor Cabinets have been designed to offer the best sound proof enclosures possible. Using state of the art 34mm thick cladding, comprised of absorbent Class 0 fireproof acoustic foam laminates applied to both sides of a heavy layer sound barrier membrane. Using this level of cladding, allows us to reduce noise by up to 25dB.

Combining a high surface mass with flexible physical characteristics, the product offers optimum acoustic performance.

The Class 0 fire rating means that the Qube Acoustic range is ideal for demanding applications such as, marine and automotive industries.

Acoustic Performance

34mm Thick, Class 0 Fireproof Acoustic Foam

Delivery

5-7 days delivery to UK mainland

Acoustic Wall Box

The Qube Acoustic Wall Box is the ideal solution for small to medium sized data installations. Commonly installed in locations such as small open plan offices, or communal areas. Our 34mm thick, state of the art acoustic foam is effective enough to reduce the noise levels of noisy equipment, such as network switches and other fan based active devices by 25dB.

Available in 6, 9, 12, 15 & 18U high and 600mm deep, allows the Qube Acoustic Wall Boxes to accommodate most of today's hardware, such as network switches, UPS's and small servers.

Key Features:

- Capable of up to 25dB noise reduction
- 34mm thick foam cladding
- Class 0 fireproof foam
- Fan unit available
- 6, 9, 12, 15 & 18U high
- 600 wide x 600 deep
- Removable & lockable solid steel front door
- Adjustable 19" vertical mounting profiles, front & rear
- U height markers on all four vertical mounting profiles
- Solid steel lockable front door
- Removable & lockable side panels
- Top & bottom cable entry
- One man install hanging bracket
- All round earth bonding
- Black in colour (RAL9004)

Acoustic Floor Cabinet

Qube Acoustic Floor Cabinets are the perfect solution for larger networking installations. Available in 22, 27, 37, 42 & 47U high enclosures. Fully cladded with our state of the art 34mm acoustic foam, providing up to 25dB noise reduction, when noisy active equipment needs to be muted.

The range is available in various footprints, such as 600 x 600, 600 x 800, 800, 600, 800 x 800 & 800 x 1000mm, to cater for most of today's installation environments, where larger network switches, UPS's and servers are required.

Key Features:

- Capable of up to 25dB noise reduction
- 34mm thick foam cladding
- Class 0 fireproof foam
- Fan unit available
- 22, 27, 37, 42 & 47U high
- Footprints - 600 x 600, 600 x 800, 600 x 1000mm
800 x 600, 800 x 800, 800 x 1000mm
- 800kg static load capacity
- 800 wide cabs fitted with vertical jumper rings (enclosed)
- Adjustable 19" vertical mounting profiles, front & rear
- U height markers on all four vertical mounting profiles
- Transport casters & jacking feet fitted
- Solid steel lockable front & rear doors
- Removable & lockable side panels
- Top & bottom cable entry
- All round earth bonding
- Black in colour (RAL9004)
