

QL1 Low Profile Wall Box

- 4U, 6U, 9U, 12U & 15U High
- 225mm deep
- Lockable front glass door
- Door can be hinged on left or right
- Vented side panels
- Top, bottom & side cable entry
- Cage nuts supplied
- Powdered coated finish

The QL1 Low Profile Wall Box has been specially designed to provide a high quality cost effective solution for small office or home installations. Based on a depth of 225mm which allows the Wall Box to be installed in environments where space is limited.

A strong and robust Wall Box, fully welded construction, with a steel framed acrylic door, for safety and security. The door has a quick release hinge to allow easy access to load equipment and cables.

Features include cable entry access via top and bottom with gland plate covers, and adjustable mounting angles. The side panels include cable entry 'knockouts' for easy cable routing.

All standard 19" products such as patch panels, rack mount switches, cable management bars and shallow modem shelf can all be fitted into the QL1 Low Profile Wall Box.
